AMENDMENT "B"

Director of the U.S. Patent

P.O. Box 1450

Sir:

In response to the Office Action of June 21, 2004, having a response being due by September 21, 2004, please consider the following remarks:

REMARKS

Upon entry of the present amendments, Claims 14 and 15 remain in this case. Reconsideration of the rejections, in light of the forgoing amendments and present remarks, is respectfully requested. The present amendments have been entered for the purpose of placing the application into a proper condition for allowance.

In the Office Action, it was indicated that Claims 9, 10, 11 and 13 were rejected under 35 U.S.C. § 102(b) as anticipated by the Amos patent. Claim 12 were rejected under 35 U.S.C. § 103(a) as being obvious over the Amos patent. Importantly, the Examiner has indicated that Claims 14 and 15 are "allowed".

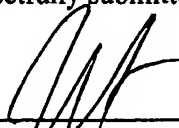

Although Applicant respectfully disagrees with the Examiner's prior art rejections, Applicant is desirous of securing patent protection for the present invention at an early date. As such, Applicant has canceled those "rejected" claims and now is relying upon the "allowed" Claims 14 and 15.

Based upon the foregoing analysis, Applicant contends that independent Claim 14 is now in proper condition for allowance. Additionally, any claims that are dependent upon Claim 14 should also be in condition for allowance. Reconsideration of the rejections and allowance of the claims at an early date is earnestly solicited. Since no new claims have been added above those originally paid for, no additional fee is required.

Since this is a Response to a final rejection, Applicant would respectfully request that an Advisory Action be issued as soon as possible in the event that the Examiner should determine that the present Amendment "B" is defective in any way or that Claims 14 and 15 are not allowable.

Respectfully submitted,
